Comment #1 Failed to file the required Form 301 application simultaneously with the Petition and Application. A party filing a petition for rulemaking to add a new allotment to the FM Table, whether as an original proposal or as a counterproposal, must simultaneously file a Form 301 application specifying the proposed facilities and the application must include a certification that, if the FM channel allotment requested is adopted, petitioner/counter-proponent intends to apply to participate in the auction of the channel allotment requested and specified in this application. All related proposals must be simultaneously filed and clearly cross-reference each of the other component filings. The dismissal, denial or return of any component filing will result in the dismissal or return of all the related filings. See Revision of Procedures Governing Amendments To FM Table of Allotments and Changes of Community of License in the Radio Broadcast Services, Report and Order, 21 FCC Rcd 14212 (2006).

Comment #1 Failed to file the required Form 301 application simultaneously with the Petition and Application. A party filing a petition for rulemaking to add a new allotment to the FM Table, whether as an original proposal or as a counterproposal, must simultaneously file a Form 301 application specifying the proposed facilities and the application must include a certification that, if the FM channel allotment requested is adopted, petitioner/counter-proponent intends to apply to participate in the auction of the channel allotment requested and specified in this application. All related proposals must be simultaneously filed and clearly cross-reference each of the other component filings. The dismissal, denial or return of any component filing will result in the dismissal or return of all the related filings. See Revision of Procedures Governing Amendments To FM Table of Allotments and Changes of Community of License in the Radio Broadcast Services, Report and Order, 21 FCC Rcd 14212 (2006).
